casamed family doctor

When your doctor is part of the family.

Your family doctor practice knows you and your family. They often know straight away which treatment you need. **casamed family doctor** is really simple and you save a lot on premiums.

Here's how it works

- If you're ill, always go to your chosen family doctor practice first.
- They will coordinate your treatment and, if necessary, refer you to a specialist medical practice or hospital.
- You can visit an ophthalmologist, gynaecologist or paediatrician (up to the age of 16) and an emergency department or ward directly – without a referral. Please inform your family doctor practice following emergency treatment.
- An emergency is deemed to exist when a person is in an acute situation that threatens their health or life and requires immediate medical treatment.
- Important information: If you do not follow the rules, Sympany may refuse to bear the costs. If you repeatedly fail to follow the rules, we will switch you to traditional basic insurance with a free choice of doctor.
